E2E Sport Cover is the #1 Rolling Cover System in the Industry

CELEBRATING 10 YEARS IN PRODUCTION

Top of the Line Hydrofend™ Fabric for E2E Sport Cover™

Made in the USA Hydrofend provides the ultimate defense against the weather. This specially engineered coated fabric has been thoroughly tested to strike a balance between hydros and breathability. This means it shields against moisture while still allowing airflow for fabric covers. A solution-dyed polyester base gives Hydrofend a long service life under any climate.

The coating on the back prevents abrasion and fraying, making it easily trimmed and gel-coat friendly. The face of the fabric features a matte look for functional style. For your most demanding applications, Hydrofend has high tear and break strengths. This lightweight fabric offers impressive defense against cold crack, mold, and mildew.
